

SOCCER SKILLS CAMP

2020 COVID-19 Protocols for Caramba Soccer Camp

June 7, 2020

For our upcoming soccer camps, Caramba will be in compliance with the *Stay at Home 2.0 Day Camp* guidelines issued by the State of New Hampshire (the "Guidelines"). Soccer is one of the safest activities in the current environment due to the fact that it is outdoors and primarily involves foot skill development.

Protocols Being Undertaken by Caramba:

1. All camp staff will be New Hampshire residents.
2. All staff will be wearing washable cloth face coverings as much as possible to prevent the spread of COVID-19 when social distancing is not possible. Training will be provided to our staff based on the CDC guidelines.
3. During camp and at the end of camp, staff will sanitize water jugs for use by the campers, portable toilet handles, soccer balls, scrimmage bibs each day. The camp will also provide hand sanitizer for use by campers. Staff will supervise hand hygiene of the campers and will remind campers of the Guidelines regarding hygiene and distancing.
4. Staff will be provided with the education and training around safe practices as set forth in the Guidelines, and the camp will modify training to allow for a safe environment.
5. All staff will be tested for COVID-19 prior to the start of camp. In addition, prior to camp each day, each staff member will be required to: report any symptoms of COVID-19; report if they have come into close contact to a person with COVID-19; refrain from travel outside of the state of NH for the 14 days prior to camp; and submit to a temperature check.
6. If there is a confirmed case of COVID-19 at the camp, the Director will contact the appropriate state authorities and a notification will be issued to the remainder of the camp.
7. The registration process will include spaced check-in with sanitized pens. Parents are asked to bring their own pens.
8. Staff will remain with the same group of 9 or less campers throughout the week. Each group will have its own equipment. Each group will have its own lunch and snack as a group within their own space.

Requirements from Our Campers:

1. All campers are restricted to children who are NH residents.
2. All parents or guardians dropping off children are required to wear a cloth face covering when at the field when other individuals are present when social distancing is not possible.

SOCCER SKILLS CAMP

3. All campers are required to bring a cloth face covering to camp each day. The face mask will be requested to be worn if the entire camp needs to be in close proximity to each other.
4. Campers will be required to use hand sanitizer upon arrival before entering, after using the portable toilet, before and after meals and snacks, and at other times set forth by the Guidelines.
5. Only one family member is permitted to accompany a camper (or sibling campers) at both drop-off and pick-up each day to limit exposure.
6. Upon arrival each day, the camper and his or her family must certify the following:
 - a. The camper has not had any symptoms of COVID-19 or fever of 100.4 degrees or higher;
 - b. The camper has not been in close contact with someone who is suspected or confirmed to have COVID-19 in the past 14 days; and
 - c. The camper has not traveled in the past 14 days outside of NH.
7. Each camper will have their temperature checked with a touchless thermometer upon arrival at camp each day by the camper's individual coach. A camper with a fever of 100.4 or more will be asked to go home immediately.
8. Staggered drop-offs will be instituted beginning at 8:30 in the mornings. Afternoon pick-ups will be staggered based on parent arrivals.
9. Campers need to understand and adjust to small group soccer development with the same coach throughout the week, which is different from Caramba's traditional training.
10. We encourage each camper to bring their own ball, lunch and personal equipment on a daily basis, including sunblock.

Thank you for your cooperation and we look forward to a great week of soccer development.

Director Jorge E. Pardo
